

Dear Colleagues

Upon our observation of DRAW Behavior Program Implementation, the following are to improve the plan:

To access Rtl Behavior resources Visit:

T Drive →2015-2016→ Rtl→ Rtl Behavior

Keep a behavior log for the students who continuously show inappropriate behavior. Explain the behavior and document the details such as dates. You can obtain the related form PBIS .

To comply with DRAW discipline policy, follow these steps:

1-Use your Color Coded Behavior Management System (Versions of the Traffic Light)

Use PBIS to apply one or two strategies at the time to improve the behavior.

2-Have the student(s) complete the Think sheets

3-Alternate Classroom Detention

4-Contact parents

5-PE can be canceled occasionally for not more than 2 students a day. Usually those who are sitting on red section of your color coded chart.

6-Friday sale is a privilege that you can take away in extreme cases, not the entire class.

7-Field trip cannot be canceled for any students unless you have the documentation for the measures you have taken previously and had not been effective. Discuss your strategies with Behavior Team and make the final decision prior to the field trip day.

8-Saturday Detention can be considered as a consequence. The names of attendees should be sent to the grade level Tutor for the following Saturday.

The students will be working in a quiet area and there should be no interactions or break available to them. The person in charge, has to sign student(s)' complete work.

9-Performane Improvement Plan will be effective if none of the above is a solution. In this case the Behavior Committee will meet with the teacher to complete the related forms.
