

TIER II

Steps to initiate the process of behavioral planning

1. Teachers gather background information about the student and the relevant behavior.
2. Teachers complete a functional behavioral assessment. (Observation chart- You can ask for an observer to help you to complete the report)
3. RTI Team will review the behavior (s) targeted in the functional behavioral assessment.
4. RTI Team and student's teacher will determine the measurable behavioral goals that relate to increasing or decreasing the specific behavior.
5. RTI Team and student's teacher will determine the specific interventions strategies appropriate for the behavior
6. RTI determines the appropriate dates for evaluation of the plan and its success.
7. TIER II intervention is implemented for 10 to 12 weeks with student progress every two weeks.
